PROJECTS

PORTFOLIO

[Link](#)

Proficient in HTML, CSS, and JavaScript. Designed and developed a fully responsive personal portfolio website for optimal display across various devices. Demonstrated skills in front-end web development, user interface design, and creating engaging user experiences.

UDEMY UI CLONE

[Link](#)

- Successfully created a Udemy-inspired course selling website clone.

E Learning Website UI

[Link](#)

- Incorporated responsive design principles to optimize the interface for various devices.
- Conducted usability testing and gathered feedback to iterate on design improvements.
- Developed consistent visual styles, including typography, color schemes, and iconography.
- Focused on visual design, layout
- Note: The clone allows users to view the design but does not support interactive actions.
- Planning to add interactivity using Prototyping function for enhanced user experience.
